Die Kuba-Krise, der Bau der Berliner Mauer oder die Ermordung Martin Luther Kings? Welches Ereignis fand nur zuerst statt?

Bei diesem Kartenspiel bringen Ihre Schüler wichtige historische Ereignisse von der Antike bis zur Neuzeit in die richtige chronologische Reihenfolge – je schneller sie dabei sind, umso größer ihre Chancen zu gewinnen. Ideal für Vertretungsstunden!

**Klassenstufe:** 9–13

**Bereich:** von der Antike über das Mittelalter bis in die Neuzeit

### Kompetenzen

- ausgewählte historische Ereignisse zeitlich einordnen
- das Leseverstehen trainieren
- sich über Regeln und Spielverlauf in der Zielsprache verständigen

## M 1 We need experts of world history! – Rule sheet

### You need ...

- ❖ groups of 4–6 players
- ❖ 1 deck of cards per group

### Rules of the game

- ❖ The event cards are shuffled<sup>1</sup> and distributed<sup>2</sup> by the dealer<sup>3</sup>: each player gets (at least) 4 cards. The aim of the game is to get rid<sup>4</sup> of one's cards. All players lay their cards in front of them, event side up<sup>5</sup>. It does not matter that the other players can see them. There should also be a stack of cards<sup>6</sup> left which will be used later.
- ❖ The dealer draws<sup>7</sup> the first card from the stack, reads aloud the event and then lays the card (1) in the middle of the table, event side up. The seating of the dealer also determines<sup>8</sup> left and right of the card (1). This is important because **left is before** the event and **right is after**.
- ❖ Another player starts by choosing and then reading aloud an event from his/her own set of cards. If the event happened **before** the one on the table: the card (2) goes **to the left** of the event card (1); if it happened **after**: the card (2) goes **to the right** of the event card (1).
- ❖ In clockwise direction<sup>9</sup>, each player performs a similar action: first reading aloud his/her event, then inserts<sup>10</sup> this card into the correct sequence<sup>11</sup> of events on the table.
- ❖ If any player **doubts**<sup>12</sup> the **position** of the event card, he/she can challenge<sup>13</sup> it by saying so: "I doubt this position/chronological sequence" (or any other phrase from the *Useful Expressions sheet*). The defender<sup>14</sup> must respond with either agreeing or disagreeing.
- ❖ The dealer now checks the correct response on the solution sheet or by turning around the card in doubt and the card on its left and its right. If the position of the player's card is correct, the challenger was wrong and must now take up **two cards** from the stack.
- ❖ The dealer removes the card in the wrong sequence and puts it back in the stack. Then the game continues.
- ❖ However, if the challenger is right, the player who made the incorrect move must take up **two cards** from the stack. Then the game continues.
- ❖ The player who has first discarded<sup>15</sup> all his/her cards in the correct sequence is the **winner**.
