2. Listen  and cross  the odd one out.

1. Listen and circle.

It is the 31st of October and it is Halloween, the spookiest of all nights in the whole year.

Tonight, the town is really busy. All the children want to go trick or treating. They want candy and sweets.

Look! The house of the Winkler family is decorated very spooky. There is a skeleton in the window and a gravestone in the garden. Find the skeleton and the gravestone and circle them.

Everyone is wearing costumes. Some are pretty, some are spooky. There is a group of girls and boys dressed up as a witch, a wizard, a devil and a ghost. Find these children and circle them.

Can you find the bats flying near the moon? Circle them, too.

There is another group of children. The boys and girls are dressed as a pumpkin, as a cat and as a monster. The children are angry because Mr. Crouch has no candy. They are throwing eggs at Mr. Crouch's house. Find the children and circle them.

At the end of the street is an old and empty house. It is a haunted house and it is really spooky. Can you see the spider in the window? Find and circle it.

2. Listen and cross the odd one out.

It is Halloween.

I can see many Halloween decorations. There is a pumpkin, a bowl with candy and a spider's web.

bat = 😞

There is a girl dressed as a witch. She has a hat and a magic wand. There also is a cat sitting on her shoulder.

cauldron = 😞
