Linda lives in a small village. Every morning she wakes up early and leaves her house at 7:30 a.m. She picks up Mina. They have a long but exciting way to go together.

First, they pass a pasture. There's a horse there. They would love to ride it, but of course they have to go on. So they just pet it and continue towards a pond. Now they're almost at the school. Behind the church, they take the road that goes straight ahead. Sometimes, they go to the bakery to get a bun.

Then there's a railway line. Sometimes they have to wait here while a train passes.

Now it's not so far anymore. They pass a restaurant and a kiosk, where they like to look at the latest magazines. At the chestnut tree, they have to cross the zebra crossing. Sometimes they have to wait quite long, because many cars and buses drive on this road. Then they see several cows while passing a farm. Then they're at their school. Linda likes her way to school.

But her cousin also likes his way to school, and he likes that he can experience so much in the city. Last week he even watched two cars crash into each other. But luckily everybody was fine, and nothing worse happened!
