Zuerst liegt das Ei auf dem Blatt im Mondschein.

Am Sonntag scheint die Sonne und eine sehr hungrige Raupe schlüpft aus dem Ei.

Weil sie so hungrig ist sucht sie nach Früchten.

Am Montag isst sie sich durch eine Banane.

Am Dienstag isst sie sich durch zwei Äpfel.

Am Mittwoch isst sie sich durch drei Pfirsiche.

Am Donnerstag isst sie sich durch vier Birnen.

Am Freitag isst sie sich durch fünf Grapefruits.

Am Samstag isst sie sich durch ein Stück Butterkuchen, eine Eistüte, eine Salami, einen Gummibären, ein Würstchen, eine Pfäume und ein Käsebrod.

Am Samstag Abend hat sie Bauchschmerzen.

Der nächste Tag ist wieder ein Sonntag.

Wegen ihrer Bauchschmerzen am Samstag isst sie nur ein grünes Blatt.

Danach fühlt sie sich besser.

Nun ist sie nicht mehr hungrig und sie ist auch keine kleine Raupe mehr.

Sie ist eine dicke, fette Raupe.
